Education

GLA University

Bachelor of Technology in Computer Science (CPI: 75.9)

2020-2024

Mathura

R.R.K. SR. SEC. SCHOOL

Class XII CBSE 66.8% (PCM)

2019-2020

O.P.G.M. SR. SEC. SCHOOL

Class X CBSE 66.8%

2017-2018

Experience

WEB DEVELOPMENT | INTERSHALA TRAININGS

May'22-July 22

- Strengthened proficiency in HTML and CSS through practical application in web development projects.
- Advanced to an intermediate level in SQL, demonstrating competence in database management and querying.
- Expanded knowledge and skills in JavaScript, applying concepts to enhance website interactivity and functionality.

UI/UX DESIGNER | JARURAT CARE FOUNDATION

June 24-Present

- Conducted comprehensive UX research focused on the needs and challenges of NGOs, leading to improved user-centered designs.
- Created visually appealing and effective posters to support the foundation's initiatives and campaigns.
- Applied knowledge in wireframing and prototyping tools to develop and iterate on design concepts.

Projects

Jewellery Web Application | HTML, CSS, JavaScript, GitHub

[Source Code](#)

- Implemented features to streamline the shopping experience, including a user-friendly interface for product selection and seamless checkout process.
- Integrated customer service functionalities to address inquiries and provide assistance throughout the purchasing journey.
- Employed data-driven insights to manage shipping logistics and inventory based on customer demand, ensuring timely delivery and optimal inventory levels.

Blogging Web Application | HTML, CSS, JavaScript, PHP, GitHub

[Project Link](#) / [Source Code](#)

- Enabling users to register, log in, and manage personalized accounts seamlessly.
- Implemented robust user authentication mechanisms using XAMPP by creating database to ensure data security and privacy.
- Integrated social media sharing options to amplify the reach of blog posts, fostering greater engagement and audience interaction.
- Designed an intuitive user interface for effortless navigation and an enhanced browsing experience.

Coffee Shop Mobile App Design | Figma, Prototyping

[Project Link](#)

- Designed a user-friendly and visually appealing coffee ordering app interface to enhance the user experience for coffee enthusiasts.
- Ensured intuitive navigation and seamless user flows for browsing coffee options, placing orders, and tracking deliveries.
- Simple and inviting login and sign-up screens.
- Visually rich product exploration section.
- Streamlined ordering system with customization options.
- Real-time delivery tracking with map integration.

Achievements

- Earned a 2-star rating on Codechef, showcasing proficiency in competitive programming and algorithmic problem-solving.
- Achieved a Leetcode score of 150+, demonstrating coding proficiency in algorithmic challenges and problem-solving abilities.
- Successfully completed the 30 Days of Google Cloud Program, gaining practical experience and expertise in cloud computing technologies offered by Google Cloud Platform (GCP).

Courses

Web Development (Internshala)
Presentation Skills

June 22-Aug'22
Infosys Springboard

Technical Skills

Languages: Java, HTML, CSS, JavaScript

Databases: SQL

General: Data Structure and Algorithms, OOPs in Java

Others: Github , Git , VSCode, Figma, Canva
